ANNEX 1:

Reference	SIHLWA 5/2/Info 1
Title	Scope and purpose of the NDPHS SHILWA EG
Submitted by	SIHLWA Coordinating Chairman
Summary / Note	-
Requested action	For information

As stipulated by the Terms of Reference² provided by the Northern Dimension Partnership in Public Health and Social Wellbeing (NDPHS) governing bodies and as indicated in the Annual Action Plan for 2008³ the Expert Group on “**Social Inclusion, Healthy Lifestyles & Work Ability**” (“**EG on SIHLWA**”) will organize its 5th meeting 6 (Thursday) – 7 March (Friday) 2008 in Oslo/ Norway, sponsored by the Ministry of Health and Care Services.

The **EG SIHLWA** consists of 3 sub-groups:

Subgroup on Alcohol (Chair Kari Paaso⁴/WHO-EURO, Co-chair Evgeny Krupitsky⁵/Department of Addictions Research Laboratory, Leningrad Regional Center of Addictions);

Subgroup on Adolescent Health and Socially-Rewarding Lifestyles (Chair Mikko Vienonen⁶/SIHLWA Coordinator, Co-chair Dr. Aldona Jociute⁷, Head of Bureau for Health Promoting Schools of State Environment Centre of Lithuania);

Subgroup on Occupational Safety and Health (OSH) (Chair Wiking Husberg⁸/ILO-Russia, Co-chair Remigijus Jankauskas⁹/Institute of Hygien/MoH/ Lithuania)

WHO-EURO Division of Health Programmes provides overall oversight from WHO side.

In the previous 4th SIHLWA meeting in May 2007, the Expert Group discussed the overall Action Plan for the EG SIHLWA and its sub-groups for 2008 and the final document was adopted by the Partnership Annual conference in Vilnius on 16 November 2008, after e-mail consultation with the sub-groups’ chairs, co-chairs and SIHLWA members. The SIHLWA Action Plan for 2008 is available as annex of this document and also on www.ndphs.org/expert_groups/documents.

As usual, this 5th SIHLWA meeting will have all three sub-groups (see above) coming together, and the program will consist of joint sessions and individual sub-group sessions as indicated in attached proposed provisional program.

Common SIHLWA topics to be discussed with all three sub-groups together will include:

- Reviewing the SIHLWA report from 2007 and discussing the lessons learned from our past experience, strengths and weaknesses.
- Reviewing together the 2008 SIHLWA Action Plan and discussing the implementation in practice. The NDPHS data-base project gives the expert group a challenge to elaborate thematic papers and situation analyses on the Northern dimension Region, which OSH sub-group already has started.

⁵ kru@ek3506.spb.edu

⁶ m.vienonen@kolumbus.fi

⁷ aldona.jociute@takas.lt

⁸ husberg@ilo.org

⁹ jank@dmc.lt

- Reporting on the PAC-4 meeting (16 November 2007) conclusions.
- Reporting on the pre-PAC Forum meeting on “Healthy Life – Healthy Work” and the adopted Strategy on Health at Work
- Updating the NDPHS Database project:
 - Reviewing together the SIHLWA Info-Sheet content and providing the secretariat suggestions for improving its content.
 - Discussing the situation of sub-group based thematic papers for the data-base project (as already started by OSH-group). Steps forward.
- Continuing work on strengthening links with main partners (especially WHO-EURO, ILO/Russia, and national actors on NCDs and healthy lifestyles.
- Strengthening collaboration with NDPHS Secretariat in Stockholm.
- Providing an update on the NDPHS project pipe-line and how it can relate with SIHLWA activities.

Following the recommendations of previous meetings, sufficient working time will be allocated to three sub-groups, namely 1) alcohol, 2) adolescent health and social well-being, and 3 occupational health & safety to elaborate on their own ongoing projects and country specific work:

The subgroup on adolescent health and socially-rewarding lifestyles will:

- Review the progress of NCM and Finland funded project on “**Alcohol and Drug Prevention among Youth in St. Petersburg**” which started in November 2007.
- Discuss the content of **thematic report on ADO for NDPHS Data-Base project** to compile a profile on youth’s health behaviour and on existing policies targeted at youth’s health at north-west Russia and Northern Europe. This “Northern dimension youths health profile” would comprise information on youths (10-25 year olds) substance misuse and other risk behaviour, such as sexual behaviour and nutrition.
- Innovate on new project opportunities and ideas.

The **subgroup on alcohol** will:

- Elaborate on project planning of **Prevention of Hazardous & Harmful Use of Alcohol: Early Identification and Brief Intervention “EIBI”**. Early identification/brief intervention is an effective tool for the prevention of harmful drinking which makes use of a relatively well-established infrastructure and communication channels.
- Discuss the content of **thematic report on ALC for NDPHS Data-Base project and focus on brief intervention-related questions**. In Finland, Norway and Sweden, for instance, the report could give an overall view of past and present efforts to disseminate brief intervention, of the results of such efforts and, depending on the availability of data, on the size of the population that could benefit from brief intervention and support for controlled drinking. In countries where brief intervention is still a novelty, the report could focus for instance on potential partners for co-operation, existing materials and resources, and on the data available to estimate the size and nature of the target population. The Country Profile Questionnaire developed in the PHEPA project could be used where applicable.
- Further elaborate and develop plans and programme for **seminar on EU law on alcohol control and assessment of its impact on national alcohol policy consideration**.
- Innovate on new project opportunities and ideas.

The subgroup on occupational safety and health (OSH) will:

- Review the progress of the ILO NW Russia OSH project and the plans to start a occupational health study in the transport sector in selected countries.
- Reviewing the progress of “**Occupational Safety and Health (OSH) in north-Western Russia**” with funding from Finland and ILO (2007-08).
- Discuss a project proposal on the development of **OSH in the Public Transport Sector in the Baltic Countries**.
- Further elaborating the **thematic report on OSH for NDPHS Data-Base project**, specifically the preparation of national OSH profiles in selected countries.

Registration and practical meeting support will be provided by The Ministry of Health and Care Services of Norway (details available in the registration form).

This SIHLWA meeting will be a challenging opportunity to move further towards practical implementation of important lifestyle related activities in the Northern Dimension Partnership area. Therefore, it would be important to have representation from as many partnership countries and organizations as possible. The attached SIHLWA membership list indicates clearly that all subgroups have not been sufficiently represented by partnership countries and organizations, yet.

The participants of this EG SIHLWA meeting would consist of public health experts nominated by the different member countries of the partnership. Affiliated international public health agencies like WHO, ILO, etc. are also invited to send their experts. Additionally, public health institutes and relevant NGOs in respective countries are welcome to participate. We expect that approximately 40-50 people would be present.

A special challenge for this Expert Group will be how we can best benefit from the synergy that the three subgroups will pose. To have three parallel meetings taking place at the same time would not serve the purpose. However, in a heterogeneous group it is also important that the three theme groups can have time for their own deliberations. The program has been designed so that these competing needs could be properly balanced and addressed.

There will be simultaneous English – Russian interpretation for all plenary session. Thematic meetings may not all be able to provide simultaneous interpretation, except for one sub-group with most Russian speakers participating. However, through ad hoc arrangements participation in both languages will be facilitated as much as possible.

Dr. Mikko Vienonen

Coordinating Chair for Northern Dimension Partnership Expert Group on “Social Inclusion, Healthy Lifestyles & Work Ability”

Address: Sysimiehenkuja 1, 00670 Helsinki, Finland

ANNEX 7:

TERMS OF REFERENCE

SIHLWA

As adopted by CSR 9 in Paris, France
on 26-27 October 2006

I. Background and Rationale

Within the Northern Dimension area, there are significant disparities in health and well-being, including social and economic problems which lead to a high level of mortality, abuse of alcohol and drugs, and the spreading of infectious diseases. Thus, one of the main priorities of the Northern Dimension Partnership in Public Health and Social Well-being (NDPHS) is to enhance and promote healthy and socially rewarding lifestyles.

In order to achieve these objectives, the Partnership recognises that the building of public policies to enhance health and social well-being in all relevant sectors needs to take place at all levels of society. Also, the creation of supportive physical and social environments should include the continued reorientation of health systems and social care systems. The opportunities for the development of individuals' basic skills related to health and social life are consistent with the Partnership objectives to empower and mobilise people and communities to take action to enhance their well-being.

Thus, pursuant to the following provision for the Committee of Senior Representatives (CSR) as spelled out in the "Declaration Concerning the Establishment of a Northern Dimension Partnership in Public Health and Social Well-being," adopted by the Ministerial Meeting in Oslo, Norway, on 27 October 2003:

- "In order to carry out its tasks, the Committee of Senior Representatives may establish expert groups, consisting of experts from interested Partners and Participants and other international experts, as appropriate,"

the CSR decided at its meeting in Vilnius, Lithuania on 14-15 April 2005, to establish the Expert Group (EG) on "Non-communicable diseases and promotion of healthy and socially rewarding lifestyles."

The Partnership Annual Conference (PAC) held in Stockholm, Sweden on 18 November 2005 endorsed the recommendation made by the Expert Group's first meeting (held on 16-17 November 2005) to change the originally given name of the Group to "**Expert Group on Social Inclusion, Healthy Lifestyles and Work Ability (EG on SIHLWA)**." This name serves as the general title for the Expert Group's three Sub-groups, which include the Sub-group on alcohol, the Sub-group on adolescent health and socially-rewarding lifestyles, and the Sub-group on occupational safety and health (OSH).

II. Objectives

The main role of the EG on SIHLWA is to assist in co-ordinating and further developing the Partnership's co-operation in the fields of alcohol and binge-drinking, young peoples' lifestyles, and occupational safety and health. In this capacity, the EG on SIHLWA has the overall objective emphasize the priorities of support national, regional or local programmes in its respective fields of co-operation.

III. Scope of Responsibilities

According to the abovementioned Oslo Declaration, under the guidance of the CSR, an expert group may have an advisory role and/or provide professional input to the preparation and implementation of joint activities carried out within the framework of the Partnership. Also, the Declaration permits expert groups to "facilitate professional exchanges, increase co-ordination among Partners and Participants and monitor joint activities within their area of expertise."

Consistent with these provisions, the EG on SIHLWA has the following scope of responsibilities:

- Promote the principles and objectives of the Partnership in the fields of the three Sub-groups and develop strong partnerships with a wide variety of stakeholders to ensure that the Partnership achieves maximum results;
- Establish and maintain relations within the Partner Countries and Organisations as well as with international and national organisations, and other institutions, as appropriate;
- Advocate and lobby for the improvement of public health and social well-being, provide and communicate "collective knowledge;"
- Improve the general awareness of and increase positive attitudes towards the Expert Group's field of work;
- Promote public health-oriented service systems and health sector reforms with attention to populations at risk and to take into account response capacity in rural and remote locations;
- Contribute to the development of national policies that respond to the needs and requirements of Partner Countries;
- Map and identify Member Countries' needs for technical and financial support to scale-up national programmes, encourage requests for assistance;
- In association with Partners, and with assistance from the NDPHS Secretariat, support efforts to provide technical and other forms of assistance to government and national partners in planning, implementing and monitoring programmes in SIHLWA's field of expertise. This will include meeting with authorities, visiting Partner Countries at the request of the CSR, and providing information via correspondence;
- Provide feedback and report on progress to the CSR, and provide the NDPHS Secretariat with updated information, when appropriate;
- Other responsibilities, as approved by the CSR or the Partnership Annual Conference (PAC).

Within this scope of responsibilities, the EG on SIHLWA will undertake the following activities:

- Conduct ongoing reviews of projects/programmes and activities in Partnership Countries;
- Assist project groups in co-ordinating with relevant stakeholders, promote networking, coordinate work with other NDPHS Expert Groups, and seek collaborative relations with other groups and authorities, as relevant and feasible;
- In selected cases, act as a technical referee for new project proposals, project identification, planning, implementation and monitoring. This includes making recommendations on project proposals and implementation, as well as assisting in planning, as requested, including in the development of terms of reference for such reviews;

- Monitor and evaluate the results of projects and activities implemented under the Partnership initiative, in order to ensure that financing is allocated in a way that achieves maximum results;
- Provide professional advice and technical support to relevant authorities, such as by meeting with authorities, visiting Partner Countries and through written correspondence;
- Advise and assist project groups in contacting financing organisations and formulate criteria for future support of projects;
- Establish connections with other NDPHS Expert Groups and promote functioning cooperation with them as prerequisite for successful implementation of future tasks;
- Facilitate external funding together with the SIHLWA Co-ordinator and the NDPHS Secretariat;
- Co-ordinate its activities with other Partnership programmes in areas of mutual interest, as well as with related activities of other international organisations, to avoid the duplication of activities;
- Provide the Partnership website/database with information concerning the Expert Group's work;
- When relevant, review the Expert Group's Terms of Reference and advise on any necessary amendments.

The main tasks for the three SIHLWA Sub-groups shall be as follows:

Sub-group on alcohol

- Develop, facilitate and assist in implementing policies, programmes and activities to promote health, safety and well-being through reduced consumption of alcohol in general and harmful alcohol use in particular;
- Explore ways to prevent the further weakening of alcohol policies leading into increased consumption;
- Develop a strong focus on holistic and comprehensive approaches to alcohol issues in national alcohol policy strategies;
- Support the implementation of the alcohol policy framework for the WHO European Region, including through appropriate monitoring and surveillance.

Sub-group on adolescent health and socially-rewarding lifestyles

- Develop, facilitate and assist in implementing policies, programmes and activities to promote health, safety and well-being of adolescents through socially rewarding healthy lifestyles;
- Focus work on tobacco, alcohol and drug free lifestyles, healthy nutrition and prevention of obesity, increase of physical activity, prevention of accidents and violence, promotion of mental health, etc;
- Implement holistic and participatory ways of intervention as well as multidisciplinary approaches;
- Support the implementation of the WHO European Strategy for Child and Adolescent Health and Development (2005) and WHO European Strategy for the prevention and control of non-communicable diseases (2006), including through appropriate monitoring and surveillance.

Sub-group on occupational safety and health (OSH)

- Develop, facilitate and assist in implementing policies, programmes and activities to promote health, safety and well-being in workplaces and among individuals;
- Provide a link with the Baltic Sea OSH Network (BSN), which is an expert information network;

- Strengthen peer-to-peer networking and collaboration of expert institutions and respective bodies in OSH, between and within countries in the Baltic Sea region;
- Collaborate with the International Labour Organisation Northwest Russia OSH project which provides direct contacts with labour and OSH authorities, and social partners, in North West Russia and at the federal level;
- Use the Barents Newsletter on Occupational Health and Safety, published by the Finnish Institute of Occupational Health, as a means for communication.

The official language of the Expert Group on SIHLWA is English. However, where possible, efforts should be made to provide English/Russian interpretation and translation.

IV. Outputs and Results

The general scope of outputs and results from the work of the Expert Group shall be as follows:

- Oversight of the implementation of strategic objectives defined by the group and approved by the CSR;
- To advise the Partnership through the NDPHS Secretariat on related Partnership activities and proposals for various forms of support;
- To facilitate the exchange of information on programmes and projects;
- To provide expert contributions to policy evaluation;
- To promote partnership-building and activities relevant to achieving the goals of the Partnership;
- To promote regional synergies and synergies with other international organisations;
- Monitoring and peer evaluation of ongoing activities;
- Short progress reviews/reports submitted to CSR meetings and annual PAC meetings.

V. Lead Partner

The CSR decides upon the Lead Partner for the EG on SIHLWA. The role of the Lead Partner is to initiate and lead the Expert Group's activities. The Lead Partner also provides financial support to the Group to prompt its activities.

In the case that a Lead Partner decides to step down, prior to its resignation, it should inform the CSR of its intentions and propose a replacement. Accordingly, the CSR will decide whether to approve the proposed replacement, as appropriate.

VI. Composition of the Expert Group

1. Chair and Vice Chair

The Expert Group appoints its Chair and Vice Chair from the individuals nominated. In doing so, it is responsible for keeping the CSR and the NDPHS Secretariat informed of its decision.

Each Sub-group appoints its Chair and Vice Chair from the individuals nominated. In doing so, it is responsible for keeping the CSR and the NDPHS Secretariat informed of its decision. The OSH Sub-group coordinates the appointment of its Chair and Vice Chair with the Baltic Sea OSH Network Annual Meeting.

The Chairs are responsible for providing effective leadership concerning their Sub-groups' responsibilities spelled out above. In addition, the Chairs are responsible for:

- Ensuring that their Sub-groups meet at appropriate intervals, and that the minutes of meetings and any reports to the Partnership bodies accurately record the decisions taken and, where appropriate, the views of individual Sub-group representatives;
- Ensuring that their Sub-groups reach clear conclusions on the matters they discuss;
- Ensuring that the views of their Sub-groups are passed to the CSR, PAC and the Secretariat;
- Communicating their Sub-groups' views to the media, health care professionals and the public, as requested;
- Briefing new members upon their appointment, as appropriate.

2. Co-ordinator/International Technical Advisor

The Lead Partner shall appoint the Expert Group's Co-ordinator and/or International Technical Advisor (ITA), subject to the approval of the Group. The Co-ordinator and/or ITA is responsible for keeping the CSR and the NDPHS Secretariat informed of The Expert Group's decision. Depending on funding available, the ITA can be Expert Group or Sub-group specific.

The Co-ordinator's/ITA's main function is to provide uniformity, support and advice to projects through site visits and collaboration with relevant external bodies in the Programme field. The Co-ordinator/ITA shall also be actively involved in all of the activities described in the Expert Group's mandate, where appropriate and reasonable. In addition, he or she is responsible for the following:

- Preparing, in co-operation with the Sub-groups' Chairs and in contact with the Secretariat, provisional meeting agendas, meeting documents, and preparing the minutes from the Sub-groups' meetings;
- Keeping the representatives of the Sub-groups informed on a regular about the progress of projects;
- Maintaining continuous dialogue with the NDPHS Secretariat to ensure the co-ordination of activities within the Partnership;
- Contacting the NDPHS Secretariat regarding the input of the EG to relevant Partnership projects and activities, such as the Project Database and Project Pipeline;
- Developing partnerships with other individuals and organisations to ensure wide participation in development issues that the Partnership is addressing.

In selecting the Chair, Vice Chair, and Coordinator/ITA, it is advisable that they represent different countries from the Northern Dimension Area.

3. General Representation

General representation within the EG on SIHLWA shall consist of high-level experts in health- and social-sector administration, from the research community, or the NGO sector. These high-level experts shall be appointed to the Expert Group by the Partner Countries and Partner Organisations. In appointing representatives to the Group, Partner Countries and Organisations will be guided by the following considerations:

- The EG's Sub-groups will include one representative, and not more than one alternate from each Partner Country and Organisation, who has an interest and sufficient expertise in the fields covered by the respective Sub-group;
- EG representatives and alternates will normally serve in the Expert Group for a period prescribed by their respective countries or organisations, preferably for a period of at least two years.

If a representative is unable to attend an Expert Group meeting, he or she shall ensure that an alternate is sent.

If a Partner Country or Partner Organisation changes their appointed representative, it should inform the EG Chair, Co-ordinator and the NDPHS Secretariat immediately.

In addition to the appointed Partner Country and Partner Organisation representatives, the Expert Group is entitled to invite other “eligible participants” and “interested parties” as defined in the Oslo Declaration. The Chair or the Co-ordinator/ITA of a given Expert Group meeting will inform the appropriate representatives in the Group about any additional invitees prior to the meeting, if possible.

4. Sub-groups

The EG on SIHLWA has the right to establish Sub-groups to achieve the objectives of the Group, as appropriate. The establishment of a Sub-group is subject to the approval of the CSR.

As noted above, currently, the EG on SIHLWA has three Sub-groups, which include the Sub-group on alcohol, the Sub-group on adolescent health and socially-rewarding lifestyles, and the Sub-group on occupational safety and health.

VII. Meetings

The EG on SIHLWA Sub-groups shall each hold at least two meetings per year. The location of meetings will rotate based on the interest expressed by the Partners.

The Sub-groups can organise additional meetings either separately or together with other Sub-groups, as considered necessary and appropriate, given the extent of available funding and other relevant resources.

The NDPHS Secretariat has the right to attend, and submit documents to the Sub-groups' meetings as well as intervene during these meetings.

Should the Sub-groups not be in a position to decide upon additional invitees to their meetings, the Chair may invite persons from international or regional organisations who have an interest in the Sub-groups' fields to meetings or to particular sessions during such meetings.

Except as otherwise herein stated, the Expert Group will determine its own methods of work, including the preparation of agendas, the keeping of records and other procedures. The work of the Expert Group between periodic meetings shall be carried out through correspondence via e-mail and telephone.

VIII. Coordination, supervision and financial aspects

The CSR is responsible for supervising the work of the Expert Group. As to guidance, PAC is responsible for deciding on the political direction of the Group.

For co-ordination purposes, the Chair, Vice Chair and Co-ordinator should hold co-ordination meetings with the Secretariat and other Expert Groups' Chairs and ITAs. If possible, Sub-groups should also be represented. Such meetings may be organised, if necessary, by the Secretariat when pre-

paring for CSR meetings, and in these cases, would be held back-to-back with the CSR meetings, or as deemed necessary.

As the Partnership cannot bear the travel and other costs related to Expert Group representatives' participation in EG meetings, all expenses incurred by the representatives to attend EG meetings will be covered by their respective countries or organisations.

Notwithstanding the above, individual Partner Countries or organisations may provide voluntary support for the attendance of a participant at Expert Group meetings, if sufficient funds are available.

If other sources are interested in supporting the work of the Group, communication and follow-up will be facilitated by the NDPHS Secretariat.

The Lead Partner shall provide financial support to the Expert Group to aid its activities.

IX. Reporting and Decision Making

The EG on SIHLWA is answerable to the CSR and PAC. To this end, it will provide feedback and report to the CSR, as well as PAC, as necessary.

The Expert Group, supported by the Chair and the Co-ordinator and Sub-group Chairs and Vice-chairs, will prepare an annual Progress Report and a proposed Activity Plan for the following year, both to be submitted to the Autumn CSR meeting.

In order to ensure proper co-ordination and transparency, all reports and plans will be shared with all Expert Group members, the Group's Lead Partner, and the NDPHS Secretariat, which can in turn share the reports with other Partner countries and Partner Organisations.

Decisions within the Expert Group on SIHLWA shall be reached by consensus.

Only appointed representatives to the Expert Group take part in decision making.

The outcomes of each Expert Group meeting shall be documented in the meeting minutes and published on the NDPHS website. The Expert Group will ensure that all decisions are communicated to the NDPHS Secretariat and other Partnership bodies, as appropriate, and that the Secretariat will be included as a recipient of all meeting documents and other relevant documents that are circulated to its representatives.

In addition to the existing Terms of Reference, the Expert Group on SIHLWA can elaborate more precise strategies and action plans, which highlight the methods by which the goals and objectives will be reached. These strategies and action plans can be updated at Expert Group meetings, and any changes will be communicated to the CSR through the NDPHS Secretariat.

X. Relationship with other Expert Groups

The EG on SIHLWA shall seek, when appropriate, to establish and maintain collaborative relationships with other Expert Groups on cross-cutting issues.

Additionally, the EG on SIHLWA shall seek, when appropriate, to establish and maintain working relations with other relevant groups in the Northern Dimension area in a manner that promotes synergies and avoids the duplication of efforts. To this end, and when appropriate, the Expert Group may represent the Partnership in different forums to promote its own objectives and develop support and commitment from potential external partners.

Examples of cross-cutting issues that the Expert Group may wish to work with other Expert Groups on include, but are not limited to the following:

- Social inclusion and healthy lifestyles;
- Policies towards alcohol and drugs;
- Health information and education;
- Reproductive health.

XI. Amendments to the Terms of Reference

The Terms of Reference will be reviewed every two years, coinciding with Chairmanship rotation, or on an ad hoc basis, when deemed necessary by the Expert Group.

Proposed amendments to the Terms of Reference shall be co-ordinated with the NDPHS Secretariat and approved through consensus in the Group before being submitted to the CSR for adoption.

ANNEX 8.

Title	SIHLWA EG Action Plan 2008 FINAL
Submitted by	SIHLWA Coordinating Chairman
Summary / Note	This proposed Action Plan for 2008 summarizes the actions proposed to be taken by the SIHLWA EG during 2008 and estimates their approximate expenses
Requested action	for implementation

SIHLWA¹⁰ Action Plan 2008**1. Introduction**

Following the recommendation made by the Oslo Ministerial Conference of Northern Dimension Partnership¹¹ in Public Health and Social Wellbeing (2003), new Expert Group on “**Social Inclusion, Healthy Lifestyles & Work Ability**” (“**EG SIHLWA**”) was established in 2005. It held its 1st meeting in Stockholm in November 2005, where Finland and Lithuania pledged financial support for its operation. The 2nd meeting of the Expert Group was held in Helsinki 16-17 May 2006, the 3rd meeting in Vilnius 30 November -1 December 2006, and the 4th meeting in Helsinki 29-30 May 2007.

The EG SIHLWA consists of 3 sub-groups:

- Subgroup on adolescent health and socially-rewarding lifestyles [ADO]
- Subgroup on alcohol [ALC]
- Subgroup on Occupational Safety & Health [OSH]

We know already a lot about the epidemiological changes of unhealthy lifestyles and what will be the consequences to population health. The message is clear: all our countries are already in public health crisis and it is getting worse. Unhealthy lifestyles are not a natural catastrophe but a man-made problem. It can also be reversed by man-made policies and practical measures. It will require strong political action supported by integrated action by health-, social-, education- and other sectors. New innovation, holistic approach, and international collaboration will be needed, where the NDPHS Expert Group on Social Inclusion, Healthy Lifestyles and Work Ability (“SIHLWA”) will act as catalyst through:

- Bringing together key stakeholders from the core health constituencies within the health system and broader society, including those other government sectors whose policies impact on health;
- Carrying out a situational analyses, which analyse the size of the problem and identifies the priority areas for action;
- Evaluating what is already in place, strengths and weaknesses, and identifies current gaps;

¹⁰ SIHLWA = Expert Group on **Social Inclusion, Healthy Lifestyles & Work Ability**

¹¹ NDPHS consists of following members: 5 Nordic countries, 3 Baltic States, Russian Federation, Poland, Germany, France, Canada, Nordic council of Ministers, Council of Baltic Sea States, Barents Sea Collaboration, WHO, ILO, IOM, UNAIDS, & Baltic Sea States Subregional Co-operation (BSSSC).

- Strengthening international, bilateral and multilateral cooperation we could start by developing of an alliance for advocacy and action on non-communicable diseases which unites major international players in Europe, including intergovernmental organizations, NGOs and others;
- A special challenge for this Expert Group will be how we can best benefit from the synergy that the three subgroups will pose.
- Elaboration of viable and practical projects in NDP area.

In 2008 on the SIHLWA agenda primarily will be the following issues:

1. Meetings:

- **Two SIHLWA meetings** together with all 3 subgroups (February 2008 and September 2008);
- **ALC sub-group** plans for a seminar: "Impact of international trade agreements and EU internal market legislation on national alcohol, public health and social policies". Lessons learned from EC court cases with relevance to alcohol control policies will also be discussed. The seminar aims to increase understanding of the functioning of international trade legislation, and of the public health and social policy considerations involved, as well as of the political interests at stake in the legislative processes. For instance, Sweden has had many experiences from EU court cases that have led to vast changes in the Swedish national alcohol and health policy. ALC-subgroup members would be able to disseminate the experiences to other NDPHS partner countries and organizations to inform policy makers etc about the public health and social policy considerations involved in an EU membership. Target groups include ministries' health/social policy experts dealing with alcohol policy or related issues, EU law generalists from various ministries/departments concerned, researchers, key politicians and NGOs. [N.B.: identification of funding is difficult but in process]
- **OSH sub-group** plans for two joint meetings with the Baltic Sea Network on Occupational Health & Safety including dissemination and promotion of the Partnership OSH strategy, specifically the preparation of national OSH profiles in selected countries.

2. Projects:

2.1 Common for all three sub-groups

- Re-applying and starting (if funds become available) SIHLWA stakeholder analysis in Leningrad Oblast, Murmansk, St. Petersburg and Republic of Karelia. Exploring for expanding the stakeholder analysis in other Russian regions and other countries, such as Baltic States, Nordic countries and Poland, if funding can be identified. [involved unit: SIHLWA secretariat].
- Potential Years of Life Lost ("PYLL") assessment in selected N-W Russian regions (Karelia, Vologda?). [involved unit: SIHLWA secretariat].
- **2008 Wild-Card:** Reviewing possibilities to implement "Life at Stake" ("Elämä pelissä") popular TV-show on a Russian TV-channel in 2008. The prototype started in Finland in September 2007 on prime TV-time involving national VIP-persons such as a minister of health, trade-union leader, pop-artist, sports-figure and others. The program is entertaining, yet scientifically based and clearly demonstrates why life expectancy for many

is as low as it is, and which factors (alcohol, tobacco, obesity, stress, lack of physical activity etc.) influence it and how much. Most importantly, it also can demonstrate what one can do about it and how much one can “manipulate” the length of your life. A challenging task is to try to transfer the concept into another setting in the NDP area but it would be worth trying. SIHLWA has good links with those who have developed the basic data for the “Life at Stake” program (National Public Health Institute/ Finland and Duodecim Association of Finnish Physicians). [involved unit: SIHLWA secretariat].

2.2 ADO sub-group projects

- Continuing and expanding the NCM and Finland funded project on “**Alcohol and Drug Prevention among Youth in St. Petersburg**” which started in October 2007.
- **Thematic report on ADO for NDPHS Data-Base project** to compile a profile on youth’s health behaviour and on existing policies targeted at youth’s health at north-west Russia and Northern Europe. This “Northern dimension youths health profile” would comprise information on youths (10-25 year olds) substance misuse and other risk behaviour, such as sexual behaviour and nutrition. Besides statistics on prevalence of risk behaviour, report would include information on laws and their implementation, health policies and programs targeted at youth’s health-behaviour in north-west Russia and in northern Europe. The already existing data would be gathered from various sources at these countries, and based on this possible gaps in policies would be identified and recommendations for actions needed pointed out. Data would be collected from various health monitoring activities, the Development of Child Health Monitoring (LATE) -project, and internationally from health monitoring systems such as Finbalt-project and WHO-EURO CINDI-Programme (Countrywide Integrated Non-communicable Disease Intervention).

2.3 ALC sub-group projects

- Project on the **Prevention of Hazardous & Harmful Use of Alcohol: Early Identification and Brief Intervention “EIBI”**. Possible regions/countries for implementation: St. Petersburg City if possible with the St. Petersburg City Health Committee. Other potential candidates are Leningrad Oblast, Republic of Karelia, Murmansk, Cherepovets city /Vologda Obl., Arkhangelsk, Republic of Komi, Nenets Autonomic Area. Potential funders (tentative): Finland, Norway, Sweden, EC, and possibly others. Estonia, Latvia and Lithuania have joined the Primary Health Care European Project on Alcohol PHEPA (www.phepa.net) funded by the EU public health program and could possibly join with their own funding. Collaboration with the Nordic Center for Alcohol and Drug Research through a seminar on brief intervention, in which special attention could be given to NDP countries’ interests. Project objective: to disseminate brief intervention as a method for prevention of harmful and hazardous alcohol use. Sweden and Finland in particular could report on the dissemination of early detection and brief intervention activities implemented in the health care system dating from some years back and up until today. Early identification/brief intervention is an effective tool for the prevention of harmful drinking which makes use of a relatively well-established infrastructure and communication channels we believe that the project "Prevention of hazardous and harmful use of alcohol: Early Identification and Brief Intervention (EIBI)" should proceed.
- **Thematic report on ALC for NDPHS Data-Base project and focus on brief intervention-related questions**. The reports will be of best use if designed to respond to the specific information needs existing in the respective countries. In Finland, Norway and Sweden, for instance, the report could give an overall view of past and present efforts to disseminate brief intervention, of the results of such efforts and, depending on

the availability of data, on the size of the population that could benefit from brief intervention and support for controlled drinking. In countries where brief intervention is still a novelty, the report could focus for instance on potential partners for co-operation, existing materials and resources, and on the data available to estimate the size and nature of the target population. The Country Profile Questionnaire developed in the PHEPA project could be used where applicable.

2.4 OSH sub-group projects

- a. Continuing 2nd phase of “**Occupational Safety and Health (OSH) in north-Western Russia**” with funding from Finland and ILO (2007-08);
- b. The SIHLWA OSH sub-group is preparing a project proposal on the development of **OSH in the Public Transport Sector in the Baltic Countries**. Practical implementation of the new Partnership OSH strategy against Cardio-vascular (CVD) morbidity is one of the priority issues for this project, and it is strongly related to lifestyles and work. There is a great deal of space for preventive activities. Cardiovascular problems have increased rates in transport, and that workplace can successfully be used as a setting for preventive activities. Partners in this project need to be defined; Enterprises to be selected; Benefits from the project to be described →social marketing → healthy drivers, safe public transport. Also indicators need to be defined in order to be able to evaluate the results afterwards. Partnerships need to be established at the country level and a proper stakeholder analysis would be needed from each of the participating countries. The institutions/countries need to commit themselves to the preparation and implementation of the project. Preliminarily, prevention of CVD morbidity in road transport has been planned as a topic of the project, but e.g. prevention of alcohol problems is another topic around which the project could be built up.
- c. **Thematic report on OSH for NDPHS Data-Base project**, specifically the preparation of national OSH profiles in selected countries. This activity already started in OSH sub-group in 2007 but will be continued in 2008.

3. Other activities:

- Continued work on strengthening links with main partners (especially WHO-EURO, ILO/Russia, and national actors on NCDs and healthy lifestyles.
- Strengthened collaboration with NDPHS Secretariat in Stockholm and in St. Petersburg (NCM Office).
- Collaboration and updating SIHLWA projects in the new NDPHS data base.

4. Budget:

In order to be operational EG SIHLWA needs a secretariat consisting of Coordinating Chair and secretarial support, which has been provided through the Ministry of Social Affairs and Health/ Finland and Ministry of Health/ Lithuania. SIHLWA core administrative activities consist of organizing and reporting two expert group meetings per year, keeping contact with relevant bodies and organizations operating in NCD- and social wellbeing sector in the NDP area and providing support to project planning and implementation.

In 2008 the establishment of a post for ITA under SIHLWA is planned. Discussions with MoSA&H/Finland have been started already in early 2007 and will continue. In the start-up phase ITA could be a part time (50%) job, and by the end of 2008 the future need would be assessed.

As expenses of SIHLWA have been and will be accounted for separately under each funding agency, it is not possible to present a detailed itemized project proposal. Total expenses of SIHLWA EG to be fully operational in 2008 can be estimated to be about 130.000 €. Project implementation is not included under this amount.

SIHLWA Action Plan 2008 submitted by:

**NORTHERN DIMENSION PARTNERSHIP
IN PUBLIC HEALTH AND SOCIAL WELLL-BEING (NDPHS)**

**EXPERT GROUP ON SOCIAL INCLUSION,
HEALTHY LIFESTYLES & WORK ABILITY (“SIHLWA”)**

“Social Inclusion, Healthy Lifestyles & Work Ability”

SIHLWA

1. SIHLWA leadership and coordination

1.1 SIHLWA Lead Partner(s) and Co-Lead Partner(s)

SIHLWA’s “Lead Partner”: Ministry of Social Affairs & Health P.O. Box 33 , FI-00023 Government, FINLAND Focal point 1 Jan – 31 July 2007: M Seija Saana, Ministerial Adviser E-mail: seija.saana@stm.fi Focal point 1 Aug. – 31 Dec. 2007: Olli Kuukasjärvi, Ministerial Adviser E-mail: olli.kuukasjarvi@stm.fi Phone: +358 9 160 73168 Fax: +358 9 160 73296	SIHLWA’s “Co-Lead Partner”: Ministry of Health/ Lithuania Focal point: Ms Virginija Ambrazevičiene Chief Officer of Foreign Affairs Division Ministry of Health Vilnius 33, LT-01506 Vilnius, LITHUANIA Phone: +370 526 047 19, Fax: +370 526 614 02 E-mail: virginija.ambrazeviciene@sam.lt
--	---

1.2 SIHLWA technical management support

SIHLWA Expert Group due to its structure of 3 sub-groups has decided to have a Coordinating Chairman for the whole group. This position was held since the beginning of SIHLWA’s existence by: Dr Mikko Vienonen Consultant in International Public Health, M.D., Ph.D. e-mail: m.vienonen@kolumbus.fi GSM: +358-50-442 1877 Address: Sysimiehenkuja 1, 00670 Helsinki, Finland SIHLWA has so far never had an International Technical Adviser (ITA)

¹² Northern Dimension Partnership in Public Health and Social Wellbeing

The **EG SIHLWA** consisted of 3 sub-groups:

- Subgroup on adolescent health and socially-rewarding lifestyles
- Subgroup on alcohol
- Subgroup on Occupational Safety & Health

Each sub-group have their own functionaries

1) Subgroup on alcohol¹³

<p>Chairperson (acting) Mr. Kari Paaso Senior Expert kari.paaso@stm.fi Ministry of Social Affairs & Health/Finland P.O. Box 33 , FI-00023 Government, FINLAND GSM: +358-50-565 837</p>	<p>Co-chairperson Dr. Evgeny Krupitsky Chief, Department of Addictions kru@ek3506.spb.edu Research Laboratory, Leningrad Regional Center of Addictions Novo-Deviatkino 19/1 Leningrad Region 188661, RUSSIA Tel/Fax: +7-812-296 9905</p>
--	---

2) Subgroup on adolescent health and socially-rewarding lifestyles

<p>Chairperson¹⁴ Dr Mikko Vienonen m.vienonen@kolumbus.fi Sysimiehenkuja 1, 00670 Helsinki, FINLAND GSM +358-50-442 1877</p>	<p>Co-chairperson Ms. Daiva Zeromskiene Head of Children Environment Health Division State Environment Centre Kalvariju str. 153, LT-08221 Vilnius, LITHUANIA e-mail: daiva.zeromskiene@takas.lt Phone: + 370 5 236 0493 Fax: + 370 5 273 7397</p>
--	---

3) Subgroup on occupational safety and health¹⁵

<p>Chairperson Mr. Wiking Husberg Senior OSH Specialist e-mail: husberg@ilo.org ILO, Subregional Office for Eastern Europe and Central Asia, RUSSIA Petrovka 15, 107031 Moscow, Russian Federation Tel. work: +7-495-933 0827 Fax.: +7-495-933 0827</p>	<p>Co-chairperson Dr. Remigijus Jankauskas, Director of Occupational Medicine Center e-mail: jank@dmc.lt Institute of Hygiene under the Ministry of Health Didzioji 22, 01128 Vilnius, LITHUANIA Phone: + 370 5 212 19 69 Fax: +370 5 212 18 10</p>
---	---

¹³ for alcohol sub-group the Chair in principle was expected to be identified from WHO-EURO cosponsoring the sub-group. Temporarily since January 2007 the group was chaired by Mr Kari Paaso (former technical adviser on alcohol for WHO-EURO). In 2007 EURO was not able to select a successor for Mr Paaso. In the future the chairmanship is expected to return to WHO and Mr Paaso would continue as partner country nominee in the group.

¹⁴ N.B. Mikko Vienonen had a double role in SIHLWA: In addition to acting as Coordinating Chair for the whole SIHLWA EG, he also was selected as Chair of the ADO sub-group.

¹⁵ for OSH sub-group the Chair in principle identified from ILO cosponsoring the sub-group.

1.3 Financial resources for leadership

Funding for SIHLWA half time coordinating chair (consultative basis) is provided by the MoSA&H/ Finland. Additionally, travel of SIHLWA functionaries to necessary administrative meetings (e.g CSR, Chairs and ITAs meetings, etc.) are covered by the Lead Partner. Also participants to SIHLWA expert group meetings are to some extent covered by the MoSA&H/ Finland budget allocation to SIHLWA, such as Finnish national experts' participation, and expenses of certain key-note speakers and some Russian participants.

Presently, SIHLWA leadership functions have been allocated directly from MoSA&H budget, and the Coordinating Chair has not been a "fund holder" of this allocation. It needs to be discussed in CSR as to how detailed the Lead Partners are willing to report on their budget and its implementation.

2. Partner participation in Expert Group activities

In 2007 the 4th SIHLWA Expert Group met in Helsinki 29-30 May in Helsinki. All three sub-groups were present and altogether 37 persons attended. The report of the 4th SIHLWA meeting (as well as reports of all previous meetings) is available on www.ndphs.org/meetings/SIHLWA.

The 5th SIHLWA meeting was planned to take place in December 2007, but the group decided to postpone it until February 2008 in Oslo. The reason for shifting the time was due to two big meetings which were organized at the end of 2007 with strong SIHLWA involvement, namely the pre-PAC meeting in Vilnius on 15 November on "Healthy Life – Healthy Work Partnership for health and safety" and the Nordic Council of Ministers' Chairmanship Conference in St. Petersburg 11-12 December on Promotion of Healthy Lifestyles, Work Ability and Social Inclusion. It also helps us to place the upcoming SIHLWA meetings in 2008 in a slightly more peaceful timing.

2.1 Participation of Partners in SIHLWA meetings

Partners are invited to nominate participants to the biannual SIHLWA meetings, always without exception bringing together all three subgroups. It would be very important to have all Partner Countries and relevant organizations do this nomination. So far no country has officially indicated that they would not be interested to participate, so we keep sending information and invitations to all.

In the attached table one can see the present situation after four SIHLWA meetings, aiming to illustrate how different partner countries and organizations having sent their representatives to previous SIHLWA meetings (1st Stockholm, 2nd Helsinki, 3rd Vilnius, 4th Helsinki)

KEY TO TABLE : a = Alcohol sub-group was represented; b = Adolescent health sub-group was represented; c = OSH sub-group was represented

Countries & Organizations*	1 st Stockholm	2 nd Helsinki.	3 rd Vilnius	4 th Helsinki
CANADA	a,b	-	-	a
DENMARK	-	-	-	-
ESTONIA	a	a	a,b	a,
FINLAND	a,b,c	a,b,c	a,b,c	a,b,c
FRANCE	-	-	-	-
GERMANY	-	-	-	-
ICELAND	-	-	-	-
LATVIA	a	b	a,b	a,b
LITHUANIA	-	a,b,c	a,b,c	a,b,c
NORWAY	a	a	a	a
POLAND	b	-	b,c	c
RUSSIAN FED.	a	a,b,c	b	a,b
SWEDEN	a,c	a,b	a,b	a
BEAC	-	-	-	-
EUC	b	-	-	-
CBSS	-	-	b	b
ILO/Russia	c	c	c	c
IOM	-	-	-	-
NCM	-	b	b	a,b
NHV(Nordic School of PH)		b	-	b
WHO/EURO	a,b	a	a	c

Each partner was invited to send at least one participant to every sub-group. Therefore, ideally the table should after the 5th SIHLWA meeting look like:

Countries & Organizations*	5 th SIHLWA mtg Oslo Feb 2008	6 th SIHLWA mtg Place?	7 th SIHLWA mtg Place?
COUNTRY A	a,b,c	a,b,c	a,b,c
COUNTRY B	a,b,c	a,b,c	a,b,c
COUNTRY C	a,b,c	a,b,c	a,b,c
ETC.	a,b,c	a,b,c	a,b,c

[N.B.: for specialized organizations it may be logical to be selective regarding sub-group participation, although some reasons would also support flexible participation to all SIHLWA sub-groups, as well.]

2.2. Participation of Partners in EG project-based activities

- **In implementation:**
 - ILO, Russian Federation and Finland: Occupational safety and health project in N-W Russian Federation (Leningrad Oblast & Republic of Karelia). 1st phase 2005 – 2007 and 2nd phase in 2007 – 2008.
 - SIHLWA-OSH subgroup: Thematic report on OSH for NDPHS Data-Base project and PAC – conference in November 2007.
- **Project started in autumn 2007:** NCM, Russian Federation (St. Petersburg), Finland and Sweden: Alcohol and drug prevention among youth 2007- 2008;
- **In planning:**
 - SIHLWA Stakeholder Analysis 2008
 - Potential Years of Life Lost (“PYLL”) assessment in selected N-W Russian regions (Karelia, Vologda?)
 - Hazardous & harmful use of alcohol: **Early Identification and Brief Intervention “EIBI”**. Possible regions/countries for implementation: St. Petersburg City (will be agreed upon with the St. Petersburg City Health Committee). Other potential candidates: Leningrad Obl., Republic of Karelia, Murmansk, Cherepovets city /Vologda Obl., Arkhangelsk, Republic of Komi, Nenets Autonomic Area. Potential funders (tentative): Finland, Norway, EC, others?
 - “PYLL” – analysis for the Republic of Karelia and/or Vologda/ Cherepovets city
 - “Life at Stake” (“Elämä Pelissä”) TV programme on healthy lifestyles’ impact on individual people

3. Action taken to implement the Expert Group’s annual Work Plan

- **January:** Coordinating Chair mission to St. Petersburg to discuss the launching of project on alcohol and drug prevention among youth together with SPb Public Health Committee and local NGOs.

SIHLWA: Expertgrupp på social delaktighet, hälsosam livsstil och arbetsförmåga

2007 SIHLWA members' individual activities and accomplishments at home-front¹⁶

I. ADO sub-group

Isi Saame

Estonia: Chief Specialist, Public Health Department, Ministry of Social Affairs of Estonia

1. Related to the drug prevention issue Estonia has been active in UNODC, Pompidou Group and EMCDDA collaboration activities.
2. The "children at risk" -topic is covered by the Social Welfare Department in the Ministry of Social Affairs of Estonia through the collaboration in the Council of Baltic Sea States (CBSS) Working Group on Children at Risk (WGCR) for long years. From July 2007 to June 2008 Estonia has the chairmanship in this working group. There are different programmes running under this working group like 1) prevention of child abuse; 2) child trafficking and unaccompanied children; 3) children in care or in institutions; 4) children and internet, etc.. In this working group in 2006-2007 specialists from 10 countries (incl. 5 from Estonia) had 2-days workshops under the programme for child trafficking prevention. The analysis of the support systems for trafficked children in Baltic Sea States is currently under development. Results will be available in 2008. Analyses project about the support systems for children after leaving the institution (incl. disabled children) is also planned.

Lithuania:

Daiva Zeromskiene,

Head of Children's Environmental Health Division, State Environmental Health Center

1. Participated in working group for preparation WHO report on "Home accidents in children and home safety regulations in Lithuania: status quo";
2. Made study on "Analysis of Public health specialists action in school";
3. Prepared report on "Implementation of Children's Environment and Health Action Plan for Europe (CEHAPE) in the Republic of Lithuania (2004-2006)";
4. Participated in working group for preparation draft on "National Children Health Promotion Programme";
5. Preparation of Regulations (Lithuanian Hygiene Standard) for internet cafe.

NHV (Sweden)/ NCM:

Max Petzold, Senior Lecturer,

Nordic Council of Ministers/ Nordic School of Public Health

1. Organized advanced course "Migration and health with focus on children";
2. Organized research course "Refugee ship, migration and health";
3. Second scientific conference on apathetic children;
4. Dissertation by Hildegunn Sagvaag. Work-related use of alcohol – a qualitative study in the Science of Public Health perspective;

¹⁶ The SIHLWA EG members were received the 2007 Progress report draft for comments. In this connection they were all asked to list "In their native countries in their official position/work in 2007, in what activities they had been involved with and accomplishments they had achieved in the field they have been representing their country in SIHLWA and its sub-groups". 5 responses were received. They are referenced in ANNEX 2.

5. Organized research course "Refugee ship, migration and health";
6. Organized conference on Adolescent Health.

II. ALC sub-group

Russian Federation:

Evgeny Krupitsky, St. Petersburg Pavlov State Medical University and St. Petersburg Bekhterev Research Psychoneurological Institute.

1. Study of new alcohol detoxification strategies and demonstrated the use of antiglutamatergic anticonvulsants effective (research findings were presented at the International Society of Biomedical Research on Alcoholism and published in the journal of "Alcoholism: Clinical and Experimental Research";
2. Study on the effect of behavioural intervention to reduce HIV-risky behaviour in detoxified alcoholics. Publication of results is in preparation.

Sweden:

Sven Andreassén and **Pi Högberg**, National Public Health Institute (Folkhälsoinstitutet),

1. Attendance and active discussion partner in all SIHLWA EG meetings and alcohol subgroup meetings held during 2007 and reporting back to relevant persons in our organisation as well as external networks.
2. Swedish sponsorship, active attendance and presentation of the Swedish nation-wide dissemination of the "Responsible Beverage Service" model.
3. Presentation of the Swedish work on the PHEPA project on screening and brief intervention for alcohol problems in primary health care at the Riga International Conference on "Reducing alcohol problems in the Baltic Sea region: Effective approaches to tackle alcohol related problems in local communities", held in Riga, Latvia, 12-13 March 2007. The event was organized under the auspices of Swedish chairmanship of the Council of Baltic Sea States (CBSS), sponsored by the Ministry of Health of Sweden, co-sponsored by the Northern Dimension Partnership in Public Health and Social Wellbeing (NDPHS)/ SIHLWA and organized in cooperation with the Ministry of Health of Latvia.
4. Active attendance and presentation at the pre- ministerial Annual Conference seminar on "Healthy work - Healthy life" in Vilnius, Lithuania, 15 November 2007. This seminar was a pre-conference Forum of the NDPHS Partnership Annual Conference (PAC), which was attended by many Nordic and other ministers. Short reference to the impact of alcohol on work and working aged population in general, and a working place screening and brief intervention project was presented.
