From the History of Congress:

"Occupation and Health" Russian National Congress with international participation is a regular national forum of physicians and specialists on the protection of workers' health. Almost 15 years it brings together leading experts and scientists in Russia and the world, not only in the field of hygiene, occupational health and diseases, and on workers' safety, medical and social expertise and rehabilitation of public health and social services, physicians of various clinical specialties, business leaders, trade unionists, politicians, businessmen.

From the History of Congress:

Frequency of Congress in 2015 - once in two years, carried out as far as possible across the country, many aligned with the work of the **All-Russian Congresses Occupational Health Physicians.**

An integral part of the Congress is to award nominees diplomas and prizes symbols "**Occupation and Health**" on certain traditional categories in the field of occupational health and diseases.

Previous, the XIII-th Congress:

The previous Congress, held in September 2015 in Irkutsk and Novosibirsk, gathered 750 delegates from more than 60 regions of Russia and 15 countries, including the United States, Sweden, Switzerland, Germany, Australia, China, Korea, the Czech Republic, Latvia and others. Congress program included 252 presentations and reports. With scientific and welcome were made by more than 300 people.

The Congress considered the most topical issues of legal, methodological and practical medical support of the working population in modern social and economic conditions.

Previous, the XIII-th Congress:

For the first time the 15-year history of the Congress the materials published in the journal "Occupational Health and Industrial Ecology", number 9, 2015, that is included in WebOfScience (BIOSIS) and Scopus. This positive experience will be taken into account and applied necessarily in the future.
