

AMR-EG

Success story of 2020

- There was no success 2020; all activities were cancelled and put on hold as covid-19 completely absorbed most members of the EG

Ambition for 2021

- To carry out a 2nd cancelled workshop in the project “Considering resistance data to inform guidelines” financed by the German government
- Plan a mapping according to WP 8 in the mittens-project.

Call for action

- In order to get a better overview of the situation on antimicrobial resistance and antimicrobial use in the region, the CSR:s can act to highlight the shortage of human resources with dedicated time to implement the WHO's surveillance systems for antimicrobial resistance and antimicrobial use and consumption.
