

NDPHS e-Newsletter 2/2007 now available Polish added as the third language on the NDPHS website

The Northern Dimension Partnership in Public Health and Social Well-being (NDPHS) is pleased to announce that the second issue of its bi-annual e-Newsletter is now available on the NDPHS website. Moreover, we are pleased to inform you that our website is now available in three languages, i.e., English, Polish and Russian. Both the e-Newsletter and the website are results of the NDPHS Database project currently under implementation.

NDPHS e-Newsletter 2/2007

This issue opens with brief information about the recent Partnership Annual Conference, which was held at ministerial level. A host of the outcomes of this event are described in this front-page article. Further, two articles are included – one written by the previous CSR Chair who looks back at the Lithuanian Chairmanship and presents its highlights. The other of them looks ahead and features the new CSR Chair's outline of critical areas for the Partnership's future action. Finally, three concrete results delivered recently by the Partnership are briefly described: the NDPHS Strategy on Health at Work, the NDPHS Database and the NDPHS Project Pipeline. Each of them being adopted/approved at the ministerial PAC, they form important pillars on which the Partnership will build its future activities. The newly developed Polish version of the NDPHS website is also mentioned in this e-Newsletter.

The e-Newsletter can be downloaded from the NDPHS website at <http://www.ndphs.org/?e-newsletter>.

Number of languages of the NDPHS website is growing

From now on the NDPHS website (including the integrated NDPHS Database and Project Pipeline) is now also available in the Polish language. This was possible thanks to the much appreciated support of the Polish Office for Foreign Aid Programmes in Health Care. Offering a website in three languages is very unique among networks such as the NDPHS and is a clear demonstration of the Partnership's efforts to reach out to as many people and stakeholders in the region as possible. By doing this, the Partnership aims to not only disseminate information among them, but also to encourage them to become involved in activities to improve public health and social well-being. All visitors of the NDPHS website can enjoy comprehensive information as well as a variety of useful tools and features presented with a user-friendly structure.

View our website at www.ndphs.org available in English, Polish and Russian and keep an eye on policy developments and explore the world of the NDPHS – a partnership committed to delivering tangible results!

While thanking all the Partners and other supporters of the NDPHS for their commitment to the Partnership's goals and their efforts during this year, we would like to wish all of them and the recipients of the NDPHS e-news a peaceful holiday season as well as prosperous and successful year 2008!
