

Norway announces NOK 9 million for projects through the NDPHS Project Pipeline

The Secretariat of the Northern Dimension Partnership in Public Health and Social Well-being (NDPHS) is pleased to announce funding available through the NDPHS Project Pipeline for projects aiming to improve health and social well-being in the Northern Dimension area.

This is possible thanks to the generous offer of the **Norwegian Ministry of Health and Care Services**, which has granted approximately **EUR 1.2 million** (NOK 9,000,000) for this purpose. The funding is available for projects with a Norwegian and a Russian partner, covering a broad array of thematic areas of relevance to public health and social well-being.

Further details and requirements can be found at <http://www.ndphs.org/?pipeline,donor,view,10>.

The Norwegian funding is **channelled through the NDPHS Project Pipeline** (<http://www.ndphs.org/?pipeline>) that, combined with the NDPHS Database (<http://www.ndphs.org/?database>), is an instrument that the NDPHS offers to its Partners and other stakeholders in the Northern Dimension area to help them coordinate activities in the region.

Applicants will benefit from being able to use this tool in proceeding all the way from a project idea through project application to project financing. As a complementary feature, the Project Pipeline offers links to websites of several other financing agencies to assist project applicants in identifying potential financiers also outside the NDPHS Project Pipeline.

The on-line project application form is available after logging in to the NDPHS Project Pipeline.

View our website at www.ndphs.org and keep an eye on policy developments and explore the world of the NDPHS – a partnership committed to achieving tangible results!
